

# Upside down

# The right way up

“Hold the map face down!”

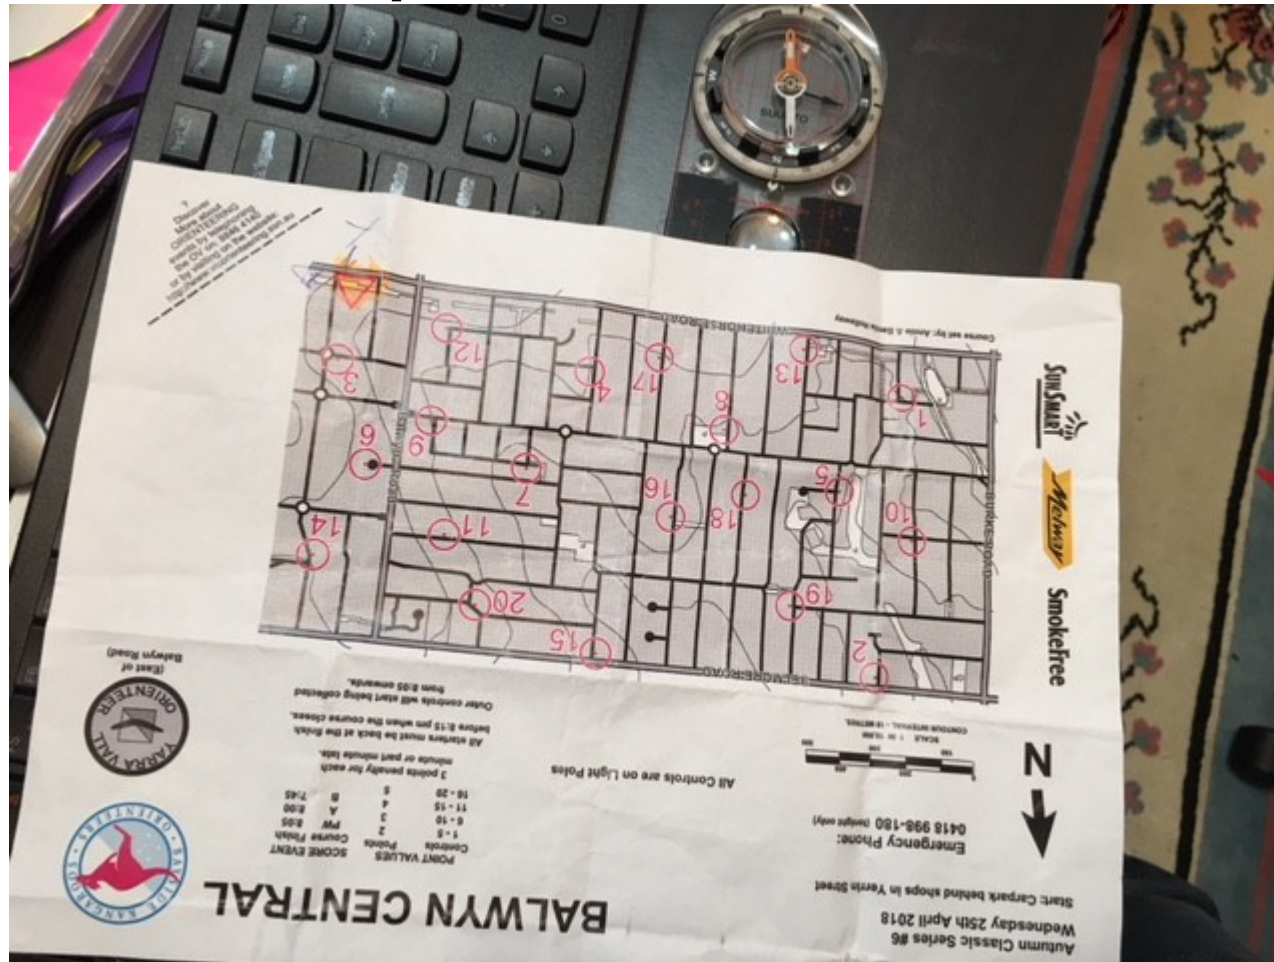

“Turn the map over.  
Hold the map the right way up!”

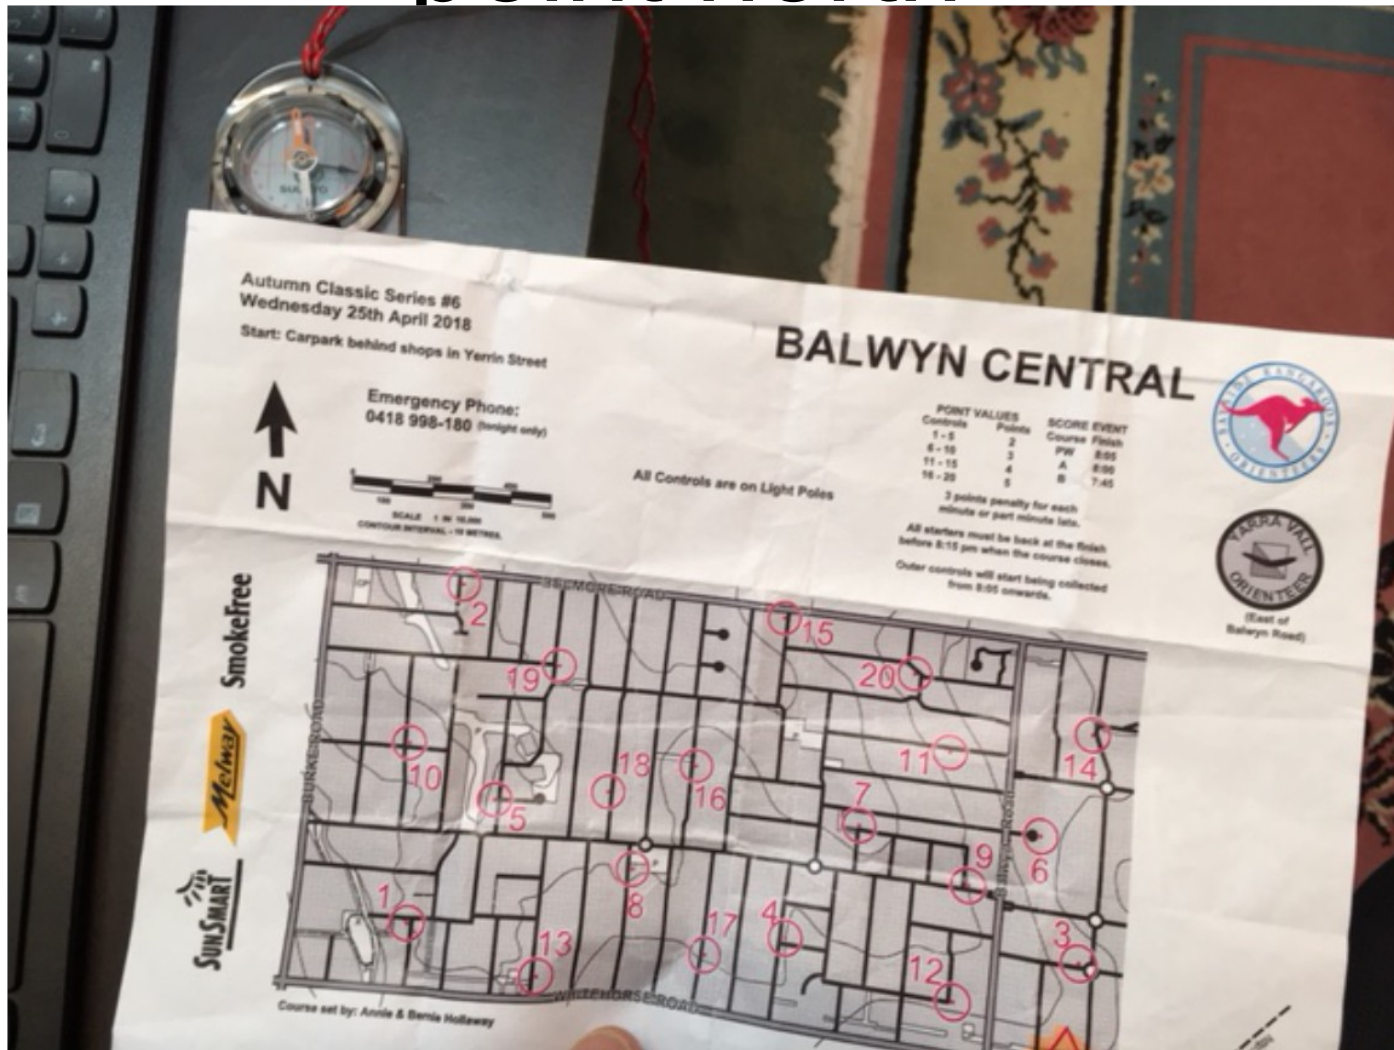

“It's facing the wrong way. Turn the map to face the right direction!  
Both the map and the compass should point north”

“Face it the right direction!  
Both the map and the compass  
point north”

“Face it the right direction!  
Both the map and the compass  
point north”
