## 2E Buying lunch at the sandwich shop

Assistant: Yes please?

Customer: I'd like a hamburger with bacon and ah, a toasted sandwich with ham, cheese and tomato.

Assistant: White or brown bread?

Customer: Oh oh brown.

Assistant: Butter?

Customer: Oh, just a bit.

Assistant: Salt and pepper?

Customer: Yes thanks.

Assistant: Anything else?

Customer: An orange juice and a chocolate milk thanks.

Assistant: Okay, the hamburger's 3.40, the sandwich is \$3.60, that's \$7 and the drinks are \$1.60 each, so that's ... \$10.20 altogether.

Customer: Thank you.

Assistant: The hamburger won't be long.

Customer: No worries.
